

2/1/2008

**BRM™ Features:**

- Unique design for the refuse and construction industries.
- Molded from a revolutionary rubber compound that provides significant improvement in wear and low cost per mile.
- Wide and solid shoulder ribs withstand the punishment of scuffing, curbing and cornering.
- The 26/32nd depth reduces tire cost by delivering added mileage.
- For radial tires only.

**BRM™** BRM™ (Bandag Rib Mixed Service)  
**Adding Size 280mm**
