

T819 *ON-/OFF-HIGHWAY* All-Position Radial

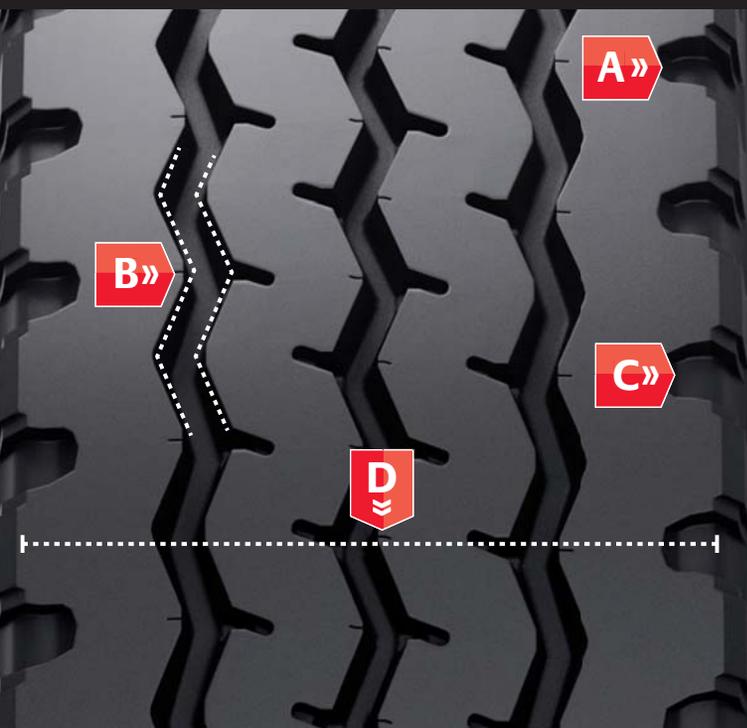

LONG LASTING & DURABLE

Developed for a wide variety of demanding applications, the Firestone T819 offers the durability necessary for construction, aggregate hauling, logging, oil field use and off-road trailers. A tough tread compound provides resistance to the cutting and chipping hazards of off-highway use, while delivering excellent wear on highways.

Couple that with casing-saving features, particularly the tough four-rib design with tapered groove walls to combat stone retention, along with the four steel belts, and you have a tire with outstanding durability for dependable retreadability.

Firestone

T819 FEATURES & BENEFITS

A»

A

AGGRESSIVE SHOULDER RIB NOTCHES

help improve wet traction by providing biting edges and aid in the evacuation of water from the shoulder area

B»

B

MULTIPLE GRIPPING EDGES

provide biting edges that help promote wet traction

C»

C

SOLID SHOULDER DESIGN

combats tread squirm for long tread life

D»

D

WIDE TREAD DESIGN

for excellent flotation and even tire wear

FOUR-RIB DESIGN WITH SPECIAL GROOVE SHAPE

tapered grooves combat stone retention for long mileage and retreadability

SPECIAL TREAD COMPOUNDS

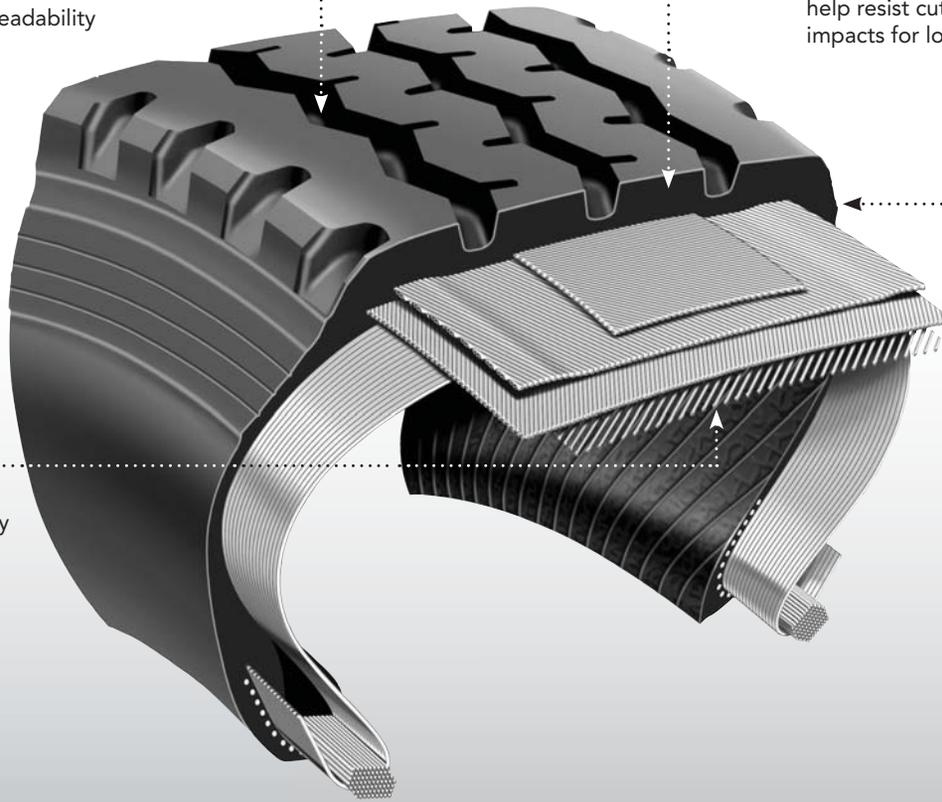

help resist cuts, chips, tears and impacts for long original tread life

CAP/BASE COMPOUNDING

combines a slow-wearing cap compound with a cool-running base that helps protect the casing from damaging heat to enhance retreadability

FOUR STEEL BELTS

help casing durability and enhance retreadability by combating casing penetration
