

**Service
Solutions**

Centralized service events - streamlined communications.

Reduce downtime, streamline communication, and ease service compliance with Bridgestone Fleet Care's Service Event Management Platform.

Eliminate chaos. Create clarity.

How Service Event Management with Bridgestone Fleet Care provides value to fleets:

Increase asset utilization by reducing time to roll

Streamline communication via digital event data, photo and document tracking

Provides transparency for all service event stakeholders

Simplify event creation and service tracking

Expedites response to roadside breakdowns

Seamlessly dispatch service providers for tire maintenance events and light mechanical work

Access to Bridgestone Fleet Care's mobile app for drivers or fleet managers to report a service need and reducing high-effort touch points through streamlined event updates (technician assignments, departure, communication, etc.)
