BRIDGESTONE & FIRESTONE: HELPING YOU MOVE MORE

As two global companies with decades of industry experience, Bridgestone and Firestone work collectively to meet all construction needs for operations of any size. The products, technologies and services are integrated to scale and grow with your business.

BRIDGESTONE

Bridgestone is the top-performing brand for construction tires due to its long history of innovation and commitment to staying ahead of the curve. Decades of research and development have resulted in tires that boast the longest tire life. Bridgestone remains dedicated to providing your operation with advanced performance backed by comprehensive solutions.

Firestone

Firestone has been leading the tire manufacturing industry for more than 100 years. Its strong heritage has allowed the company to create some of the most durable tires on and off the road today. The Firestone brand is continuously committed to providing the best products and value to get your job done right.

BRIDGESTONE OFF-THE-ROAD SOLUTIONS

Intelligent Products

The Bridgestone Off-The-Road lineup offers innovative tread patterns and compounds designed for various surfaces and applications, providing reliable performance so customers can maximize job-site productivity.

Integrated Technologies

Bridgestone Mobility Solutions provide customers data-driven technologies to help manage their life-cycle assets, get real-time pressure and temperature insights to help reduce downtime, optimize total cost of ownership and maximize productivity.

IntelliTire™

Tire Monitoring Solutions with IntelliTire:

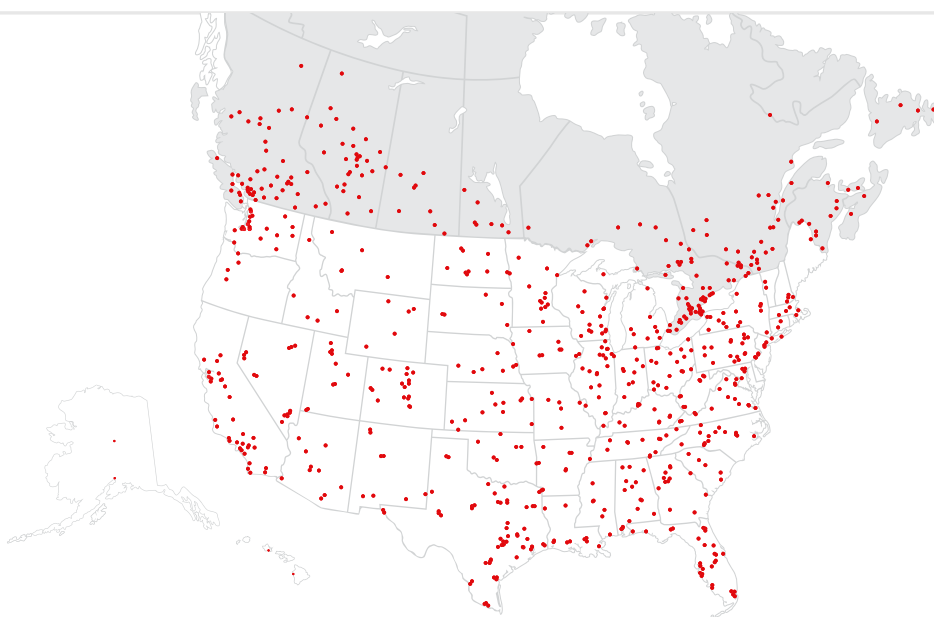

An advanced real-time tire pressure and temperature monitoring solution for nearly any OTR tire from any tire manufacturer that is 49" or smaller. Combining durable hardware and integrated with Tire & Rim Solutions* to help fleets optimize total cost of ownership, prevent unplanned downtime and help increase safety.

Tire & Rim Solutions

Bridgestone offers Off-The-Road tire and rim management solutions that allow fleets to make informed decisions and help manage life cycle of tires for increased efficiency and profitability. Monitoring each tire from receiving inventory, mounting inspections, rotation, repairs and removals no matter the size of your fleet anywhere in the world.

Best-In-Class Service

We know that the best products and technologies only stay the best when paired with best-in-class-service. Our extensive dealer network, compressive training programs, and highly qualified field engineers help improve downtime, so our Off-The-Road customers can focus on getting maximizing their productivity.
